If the student has an ELL status code of "1" or "3", then all ELL fields (D0440-ELL Assessment, D0450-English Proficiency Level, D0460-Date of ELL Program Placement within District, D0470-Type of ELL English Language Instructional Program) will also require data.

If the student has an ELL status code of "2", due to no program available or parental refusal; will also require data in fields D0410, D0440, 0450.

If the student has an ELL status code of "2", they are identified and counted as ELL students. When identified ELL student are not provided a program for whatever reason, they must receive ELL services. An example of an ELL service is differentiated regular classroom instruction.

Options

- | | | |
|----|---|--|
| 1 | Bilingual Dual Language Program | Also known as two-way or developmental. Students develop language proficiency in two languages by receiving instruction in English and another language in a classroom that is usually comprised of half native English speakers and half native speakers of the other language. |
| 2 | Transitional Bilingual Program | Also known as early-exit bilingual education. Utilizes a student's primary/native language in instruction. The program maintains and develops skills in the primary/native language and culture while introducing, maintaining, and developing skills in English. The primary purpose of the program is to facilitate the ELL student's transition to an all English instructional program while receiving academic subject instruction in the primary/native language to the extent necessary. |
| 3 | Bilingual Heritage Language Preservation | Program that continues with the development of a student's native/home or ancestral language. |
| 5 | English as a Second Language Sheltered English Instruction | An instructional approach used to make academic instruction in English understandable to ELL students. In the sheltered classroom, teachers use physical activities, visual aides, and the environment to teach vocabulary, for concept development in mathematics, science, social studies, and other subjects. |
| 6 | English as a Second Language Structured English Immersion Program | The goal of this program is acquisition of English language skills so that the ELL student can succeed in an English-only mainstream classroom. All instruction in an immersion strategy program is in English. Teachers have specialized training in meeting the needs of ELL students, possessing either a bilingual education or ESL teaching credential and/or training, and strong receptive skills in the students' primary/native language. |
| 7 | Other English as a Second Language Program (not listed) | |
| 8 | Two Way Immersion Bilingual Program | Program designed to serve both language minority and language majority students concurrently. Two language groups are put together and instruction is delivered through both languages. For example, in the U.S., native English-speakers might learn Spanish as a foreign language while continuing to develop their English literacy skills and Spanish-speaking ELLs learn English while developing literacy in Spanish. The goals of the program are for both groups to become biliterate, succeed academically, and develop cross-cultural understanding. |
| 9 | Developmental Bilingual Program | A program that teaches content through two languages and develops both languages with the goal of bilingualism and biliteracy. |
| 10 | Other Bilingual Program (not listed) | |

The Postsecondary Enrollment Options Act (Chapter 261C, Iowa Code) was enacted in 1987 to promote rigorous academic pursuits and to provide a wider variety of options to high school students by enabling eleventh and twelfth grade students to enroll part time in nonsectarian courses in eligible postsecondary institutions of higher learning in Iowa. A ninth or tenth grade student who is identified as a gifted and talented student according to the school district's criteria and procedures may now participate under this Act. The specific purposes of this Act are to: promote rigorous academic pursuits; and provide a wider variety of options for students.

More information on course codings at <http://nces.ed.gov/pubs95/95480.pdf>

More information on PSEOs at
<http://www.iowa.gov/educate/content/view/488/534/>

Additional course coding information that may be helpful:

If a course should not have an NCES course code, set the course code = 0 and leave the accreditation area blank. Example:

Study Hall	NCES course code=0	Accreditation Area=
Open Campus	NCES course code=0	Accreditation Area=

If a course that does not count toward accreditation and has an NCES course code not equal to 0, then the accreditation area = 0. Example:

Study Hall	NCES course code=0833000000000	Accreditation Area=0
Resource Room	NCES course code=28022xxxxxxx	Accreditation Area=0

If a course is a PSEO course, then the accreditation area should be blank and the Type of Course should be 2. PSEO course codes are:

Mathematics	30000xxx00000	Accreditation Area=	Type of Course=2
Science	31000xxx00000	Accreditation Area=	Type of Course=2
Social Studies	32000xxx00000	Accreditation Area=	Type of Course=2
Humanities	33000xxx00000	Accreditation Area=	Type of Course=2
Career Options	34000xxx00000	Accreditation Area=	Type of Course=2
Vocational/Technical	35000xxx00000	Accreditation Area=	Type of Course=2

The three x's should contain the Carnegie unit assigned to each PSEO course.

IOWA DEPARTMENT OF EDUCATION - PROJECT EASIER DATA DICTIONARY

All college courses typically taught at a post-secondary setting for which a district pays \$250 per student per course should be coded as a PSEO course. If a district has a 28E agreement with a post-secondary institution that enables high school students to earn college credit while taking certain courses at the high school, those courses should be coded using the 13-digit codes found in the NCES course manual and the Type of Course would be coded to 3. Please check with your superintendent or business manager to determine the current status of your college-level courses.

If a district has a 28E agreement with a post-secondary institution in which the student earns high school credit only, those courses should be coded using the 13-digit codes found in the NCES course manual and the Type of Course would be coded to 4. Please check with your superintendent or business manager to determine the current status of your college level courses.

Type of Course for a regular high school course would be 1.
